

## **ELISABETH (LIBBY) HAUSRATH**

Professor

Department of Geoscience  
University of Nevada, Las Vegas  
4505 S. Maryland Parkway  
Las Vegas, NV 89154-4010  
Elisabeth.Hausrath@unlv.edu  
(702) 895-1134 (ph)

### **EDUCATION**

**The Pennsylvania State University**, University Park, PA 2002 to 2007  
Dual-Title Ph.D. Degree Program in Geosciences and Astrobiology  
NSF Graduate Research Fellow  
NSF-Penn State BRIE Fellow (Penn State Biogeochemical Research Initiative for Education)  
Advisor: Dr. Susan Brantley  
Thesis title: Basalt weathering on Earth and on Mars

**Brown University**, Providence, RI 1996 to 2000  
Sc.B Geology-Chemistry, Honors, Magna Cum Laude

### **TEACHING EXPERIENCE**

**University of Nevada, Las Vegas**, Las Vegas, NV  
Geog 103 Physical Geography of Earth's Environment  
Geol 100 Natural Disasters  
Geol 110 Global Warming  
Geol 330 Introduction to Geochemistry  
Geol 425/625 Principles of Geochemistry  
Geol 478/678 Hydrogeochemistry  
Geol 796 Aqueous Biogeochemistry  
Geol 703 Topics in Advanced Geochemistry

**The Pennsylvania State University**, University Park, PA  
*Teaching Assistant* Geosc 40 (The Sea Around Us)  
*Teaching Assistant* Geosc 413 (Techniques in Environmental Geochemistry)

**Boise State University**, Boise, Idaho  
*Adjunct Faculty* Math 025 (Elementary Algebra)

**Brown University**, Providence, RI  
*Laboratory Teaching Assistant* Chem 21 (Introductory Chemistry)  
*Undergraduate Laboratory Teaching Assistant* Geo 23 (Geochemistry)

### **MISSION AND PROFESSIONAL EXPERIENCE**

**Mars 2020 Mission Perseverance Returned Sample Science PS** 2019-present

**Department of Geoscience, University of Nevada, Las Vegas** 2021-present  
*Professor*

**Department of Geoscience, University of Nevada, Las Vegas** 2015-2021  
*Associate Professor*

**Department of Geoscience, University of Nevada, Las Vegas** 2009-2015  
*Assistant Professor*

**NASA Postdoctoral Program NASA Johnson Space Center**

*NASA Postdoctoral Fellow*

Supervisor: Dr. Douglas Ming

2007- 2008

**Department of Geosciences, Penn State University, University Park, PA**

*Graduate Fellow*

Advisor: Dr. Susan Brantley

2002- 2007

**PEER-REVIEWED JOURNAL ARTICLES:**

\* Indicates Hausrath-advised student author # indicates Hausrath-advised postdoctoral author

Hausrath, E.M., Liermann, L.J., House, C.H., Ferry, J.G., and Brantley, S.L. (2007) The effect of methanogen growth on mineral substrates: will Ni markers of methanogen-based communities be detectable in the rock record? *Geobiology*, v. 5, p. 49-61.

Liermann, L.J., Hausrath, E.M., Anbar, A.D. and Brantley, S.L. (2007). Assimilatory and dissimilatory processes of microorganisms affecting metals in the environment. *J. Anal. At. Spectrom.* 2007, v. 22, p. 867 - 877.

Hausrath, E.M., Navarre-Sitchler, A.K., Sak, P., Steefel, C. and Brantley, S.L. (2008) Basalt weathering rates on Earth and the duration of liquid water on the plains of Gusev Crater, Mars. *Geology*, v. 36, p. 67-70.

Hausrath, E.M., Treiman, A.H., Vicenzi, E., Bish, D.L., Blake, D., Sarrazin, P., Hoehler, T., Midtkandl, I., Steele, A., and Brantley, S.L. (2008) Short- and long-term olivine weathering in Svalbard: Implications for Mars. *Astrobiology*, v. 8 (6), p. 1079-1092.

Hausrath, E.M., Neaman, A., Brantley, S.L. (2009) Elemental release rates from dissolving basalt and granite with and without organic ligands. *American Journal of Science*, v. 309, p. 633-660.

Hausrath, E.M. and Brantley, S.L. (2010) Basalt and olivine dissolution under cold, salty, and acidic conditions: What can we learn about recent aqueous weathering on Mars? *J. Geophys. Res.*, 115(E12): E12001.

Hausrath, E.M., Navarre-Sitchler, A.K., Sak, P.B., Williams, J.Z. and Brantley, S.L., (2011). Soil profiles as indicators of mineral weathering rates and organic interactions on a Pennsylvania diabase *Chemical Geology* v. 290 p. 89-100.

Hausrath, E.M. and A.A. Olsen (2013) Using the chemical composition of carbonate rocks on Mars as a record of previous interaction with liquid water. *American Mineralogist* v. 98 p. 897-906. This paper was selected by the editors of *American Mineralogist* as a “notable paper”.

Hausrath, E.M., D.C. Golden, R.V. Morris, D.G. Agresti, and D.W. Ming (2013) Acid sulfate alteration of fluorapatite, basaltic glass and olivine by hydrothermal vapors and fluids: Implications for fumarolic activity and secondary phosphate phases in sulfate-rich Paso Robles soil at Gusev Crater, Mars *J. Geophys. Res.* 118 (1): 1-13.

Hausrath, E.M. and O. Tschauer (2013) Natural fumarolic alteration of fluorapatite, olivine, and basaltic glass, and implications for habitable environments on Mars *Astrobiology* 13 (11): 1049-1064.

\*Adcock, C.T., E.M. Hausrath, Forster, P. (2013) Readily available phosphate from minerals in aqueous environments on early Mars *Nature Geoscience* 6: 824-827. This paper was featured in the News and Views section of *Nature Geoscience* and attracted considerable popular press.

\*Gainey, S.R., Hausrath, E.M., Hurowitz, J. A. and R.E. Milliken. (2014) Nontronite dissolution rates and implications for Mars *Geochimica et Cosmochimica Acta* 126: 192-211.

### **CONTRIBUTIONS TO THE UNIVERSITY AND THE PROFESSION**

**Member:** Returned Sample Science Board for the Mars 2020 mission 2015-2018

**Reviewer for:** Nature, Science Advances, Nature Geoscience, Nature Communications, Geochimica et Cosmochimica Acta, Earth and Planetary Science Letters, Chemical Geology, Geochemical Journal, Arctic, Antarctic and Alpine Research, Chemical and Engineering Science, Icarus, The Soil Society of America Journal, JGR Planets, NSF, Mars Fundamental Research Program, Mars Data Analysis Program, NASA Earth and Space Science Fellowship Program, NASA Postdoc Program, Nevada NASA Space Grant Consortium, NASA Astrobiology: Exobiology and Evolutionary Biology Program, NASA Astrobiology Institute

**Funding review panels:** I have served as a panel reviewer on seven NASA funding review panels, and chaired one NASA review panel.

**University service:** I served as the Graduate Admissions Coordinator for the Geoscience Department (2016-2019) managing two admissions cycles per year, chairing the Graduate Admissions committee, and chairing the Graduate College Awards sub-committee. I served as Undergraduate Coordinator (2012-2015) for the up to ~200 students in the Geoscience Department. I have also served as a McNair Faculty Mentor in the McNair Scholars Institute, which has the goal of encouraging and preparing undergraduate students who are members of underrepresented groups to pursue doctoral studies and I also served on the Advisory Board of the Multicultural Program at UNLV (2013-2014), which has the goal of increasing the number of minority and underrepresented groups in the STEM and health related sciences. I have served on the Sabbatical Committee (2009-2014), 5 Geoscience Department faculty search committees, chaired one Geoscience Department faculty search committee, the Geoscience Undergraduate Assessment Committee (2013 – 2015), the College of Science Undergraduate Curriculum Committee (2012 – 2015), the Geoscience Department Listening to Departments Committee (chaired Spring 2013, member Spring 2011), the Geoscience Department Graduate Admissions Committee, (2009-2012 and 2019 to present), on the Geoscience Department Personnel committee (2016- present) and as chair of the Geoscience Department Curriculum Committee (2012- 2015). I have also mentored twenty undergraduate students working in my laboratory while at UNLV.

**Outreach:** We have received funding for two outreach programs, which reached ~350 students. I have spoken at multiple additional outreach events, and my research has been covered in the media by NBC News, CBS news, New Scientist, Las Vegas Guardian Express, Fox News, The Oregon Herald, the Las Vegas Review Journal, KNPR, The Reno Gazette Journal and others.

## **SUMMARY OF RESEARCH INTERESTS**

Water-rock interactions on Earth and on Mars; soil-forming processes; astrobiology; geomicrobiology; kinetics of mineral dissolution and precipitation; biological impacts on weathering; mineral biosignatures; reactive transport modeling; the effect of climate on weathering

## **GRADUATE AND POSTDOCTORAL ADVISEES**

Anthony Feldman – PhD in progress at UNLV

Ngoc Luu – PhD in progress at UNLV

Nancy Carman – PhD in progress at UNLV

Leena Cyclic – Postdoctoral Scholar at UNLV 2019-present

S.J. Ralston – MS 2018 – employed by Jacobs at NASA Johnson Space Center

Charity Phillips-Lander – Postdoctoral scholar 2017-2018 – currently employed at SWRRI

Courtney Bartlett – MS 2017 – employed by the Arizona State Park system

Zoe Harrold – Postdoctoral scholar 2016-2017 – working as a grant/technical writer

Seth Gainey – (PhD 2015) employed by the USGS

Christopher Adcock – (PhD 2014), postdoctoral scholar 2014-2015, employed as an assistant research professor

Michael Steiner – (MS 2015) – employed at the USGS

Valerie Tu – (MS 2013) – employed by Jacobs at NASA Johnson Space Center.

Brittany (Myers) Downs (MS 2012) – employed at a state environmental agency

Julie Baumeister (MS 2012) – employed at an environmental consulting company
